Gala Collection Celebrates 20 Years of Diversity

Brentano's fall 2010 Gala collection offers range of textiles

Wheeling, IL (August 2010) - Balancing sophistication and playfulness, each of the 18 patterns of the Gala collection engage the festive theme, whether its through bold color, unique textures, flowing patterns, or technical innovation. Six high performance upholsteries offer a combination of [Nano-Tex](#), [DuraBlock](#), or [Crypton](#) finishes in fresh colors, while [eco-friendly faux leathers](#) increase the variety of the Brentano Green label and new draperies add to Brentano's selection of distinctive window treatments.

The geometric twisting and turning pattern of Nightlife was inspired by stained glass windows and brought to life using an innovative laser cutting method. Available in 3 striking colors, this 100% polyester drapery is inherently flame retardant, making it ideal for hotel and restaurant interiors. Nightlife is designed to be railroaded, and has a wide selvedge on each side: one measures 8" and the other 7.5" for a total width of 118." Additional custom colors based on existing base fabrics are available at 50 yard minimums.

Nightlife – Disco Inferno

Brentano's dynamic Nightlife is the perfect drapery for interiors looking to add a creative edge. The twisting and turning pattern is created using an innovative laser cutting method for precise, geometric cutouts.

About Brentano:

Founded in 1990 by Design Director Iris Wang and her husband and President E-Kwan Chen, Brentano has grown from a modest beginning of eight patterns to an internationally represented textile house. Brentano's fabrics stem from Wang's philosophy of balancing beauty + performance. Their growing collection of eco-fabrics expands this ideology by demanding textiles to meet thoroughly researched standards of environmental consciousness while maintaining their beauty. Celebrating their 20th anniversary in 2010, Brentano continues to offer a variety of innovative and interesting textiles, including eco-friendly faux leather, high performance upholstery, fire-resistant, outdoor and Crypton and Nano-Tex fabrics.
