New Eco-Friendly, Commercially Washable Fabrics

Brentano offers performance-minded fabrics for hospitality interiors

Wheeling, Ill. (September 2013) — Brentano's fall 2013 Rhythm collection debuts two exceptional fire resistant and commercially washable fabrics that are perfect for hospitality environments in upholstery, drapery, top of bed or bedskirt applications.

Jukebox offers a lively pattern and comes in 7 rich, jewel-tone colorways; and its complement, the medium-scale pattern **Volume**, is available in a range of usable colors. Both pass NFPA 701 Test 1, exceed 50,000 double rubs (Wyzenbeek) and are woven from a blend of polyester and fire retardant post-consumer recycled polyester—making them part of the Brentano Green line.

About Brentano:

Founded in 1990 by Design Director Iris Wang and her husband, President E-Kwan Chen, Brentano has grown from a modest beginning of eight patterns to an internationally represented textile house. Brentano's fabrics stem from Wang's philosophy of balancing beauty + performance. Their growing collection of eco-fabrics expands this ideology by demanding textiles meet thoroughly researched standards of environmental consciousness while maintaining their beauty. Having celebrated their 20th anniversary in 2010, Brentano continues to offer a variety of innovative and interesting textiles, including eco-friendly faux leather, high performance upholstery, fire-resistant, outdoor, Crypton, Nano-Tex and GreenShield fabrics. Please visit www.brentanofabrics.com for more information.
