## Brentano Redesigns Award Winner at Half Scale

**Nova is textile designer's new, compact version of contract textile Equinox**

**Wheeling, IL. (May 2016)** — Brentano's spring 2016 collection synthesizes the textile line's strengths in residential, hospitality and contract textiles. Referencing previous successes — like 2015's IIDA/HD Product Design Award winner Equinox — the 21 new patterns in Cornerstone lay a foundation for Brentano's next quarter century.

Exactly half the scale of Equinox, new performance pattern **Nova** packs an explosion of triangles into a compact form. Designed for smaller pieces, 54" Nova's seven colorways coordinate perfectly with Equinox, each undulating from dark to light and back to dark in the same fashion. The newest addition to Brentano's line of contract textiles fits in perfectly with a strong, nylon warp, a GreenShield finish and an abrasion resistance over 75,000 double rubs (Wyzenbeek, Cotton Duck).

### About Brentano:

Led by Design Director Iris Wang, Brentano has grown from a modest eight patterns in 1990 into an international source for polyurethane faux leather, outdoor, Crypton, Nano-Tex and GreenShield-finished, eco-friendly and fire retardant products. The carefully curated line reflects Iris' lifelong study of fine art, nature and Asian philosophy in beautiful, high-performing solutions for the contract, hospitality, healthcare and residential markets. *Nova-Cygnus 4566-02*

The compact version of Brentano's award-winning performance pattern Equinox, **Nova** shares the same seven colorways and explosive pattern—only at half scale. Both tessellations of triangles that undulate from dark to light, Nova and Equinox coordinate small and large pieces in a design.
