1. Guild contains 20% by weight post-industrial recycled content. Post-industrial content is any material that's recycled after the manufacturing process, but before reaching consumers. Pre-consumer or post-industrial recycled content may come from material trimmings, by products, or defective items produced in the manufacturing process.
2. The mill that manufactures Guild has environmentally conscious practices in place, including adherence to the Clean Air Act, Clean Water Act and RECRA.
3. The overall contents of Guild includes 1% cotton by weight. Cotton is a biodegradable, rapidly renewable resource.
4. Guild is manufactured in the U.S.A.
5. The mill that manufactures Guild is a modern energy efficient facility.
