1. Catnap is made from 36% post-consumer recycled polypropylene content. Post-consumer waste is recovered from a material or finished product from the consumer supply chain that has served its intended use and has been discarded for disposal. Using recycled fibers preserves the resources needed to manufacture new fibers and reduces waste destined for landfills.
2. The mill that manufactures Catnap has environmentally conscious practices in place, including renewable energy resources used during the manufacturing process.
3. Made in modern energy efficient facility.
4. PFAS-Free Stain Repellent.
5. Oeko-Tex Standard 100 Certification.
