

Green Story

Environmental impact and sustainability specifications of Brentano Green fabrics

PRODUCT: **Dhara 7551**
CONTENTS: 100% Biodegradable Polyester
USAGE: Eco-fabric, Upholstery

1. Dhara is made from 100% biodegradable content. Biodegradable content exhibits the capability to be broken down (decomposed or metabolized) by microorganisms and reduced to organic or inorganic molecules which can be further utilized by living systems.
2. The mill that manufactures Dhara has environmentally conscious practices in place, including renewable energy resources used during the manufacturing process.
3. Dhara is made with no known hazardous components or off-gassing.
4. Dhara is Oeko-Tex Standard 100 certified and can be used for possible LEED points.
